

4.3.6

By 4.3.5,

$$1 = \frac{d(P, BC)}{d(P, AC)} + \frac{d(P, AB)}{d(P, AC)} = \frac{\sin \angle BCP}{\sin \angle ACP} + \frac{\sin \angle BAP}{\sin \angle CAP} = \frac{a}{c} + \frac{a}{b}$$

Therefore,

$$\frac{1}{a} = \frac{1}{b} + \frac{1}{c}$$
